ABOUT US

Expectations

- What do you hope to gain from this session?
- Prequel questionnaire results
<http://tech4training.blogspot.com/>
- Others?

Objectives

1. Explore applications of technology in training from the:
 - HEI perspective
 - regional perspective
 - e-learner perspective
2. Demonstrate the use of appropriate technologies.
3. Practise technologies yourself.

Technologies change how we do things

Mechanical Age

Technologies change how we do things

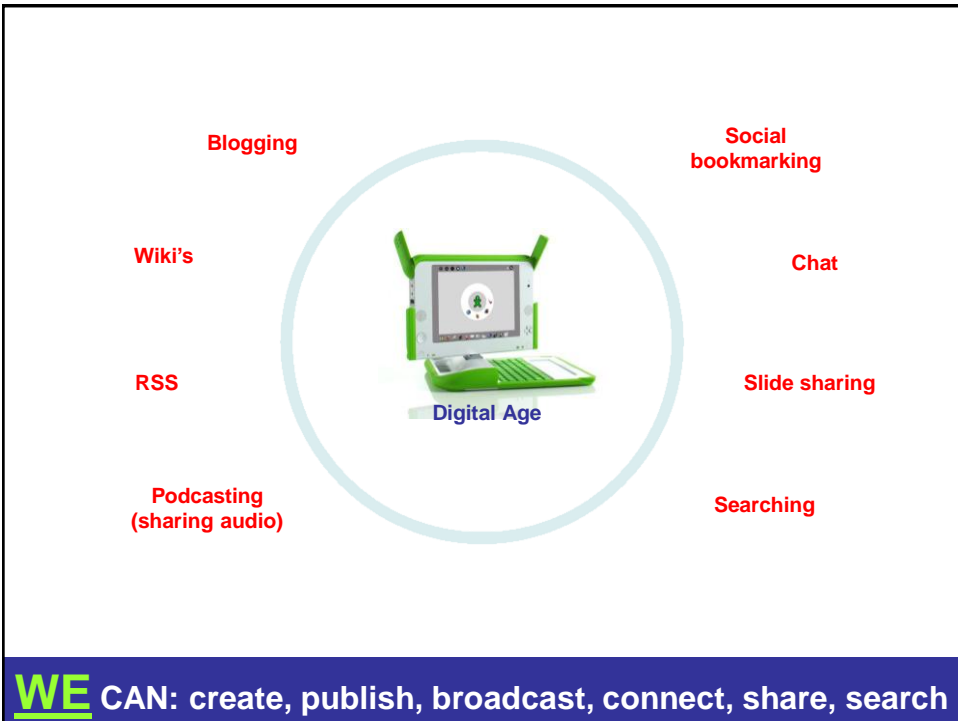

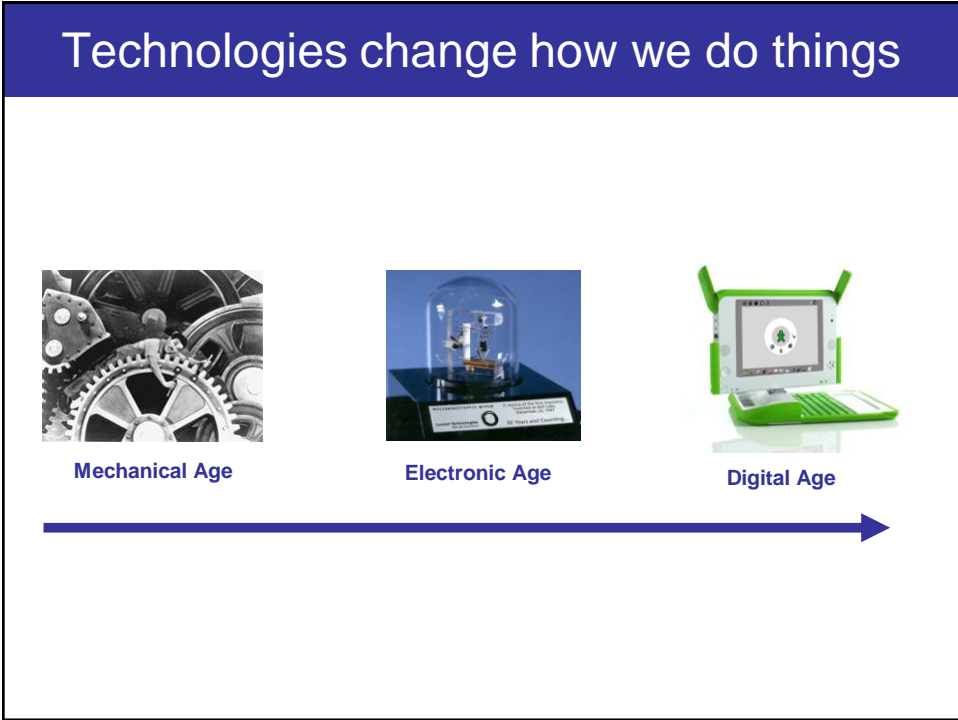

Mechanical Age

Electronic Age

How do we make the connection
between training and digital
resources?

HEI examples

How do we make the connection
between training and digital
resources?

Regional examples

Time to roll up your sleeves...

We can categorise the types of training methods

Image source: http://www.andrewroop.com/images/filing_cabinet.jpg

Activity

1. Think of all the methods that are used as part of training. Add them to a category in the worksheet

Activities

[Training Categories Mind Map](#)

Discussion

- How can you integrate technology into training methods?
- Share your experiences with other trainers via the blog:
