GHYHORSPHORUS (P) AND SULFUR (S) IN THE ENVIRONMENT

- SkillsForge HEI customer

- Flinders University, ACGR Monthly Newsletter

SkillsForge is a software as a service solution that is a product of over 20 years of research and development at the University of York. It is commercially available to universities across the world and hosted at Amazon Web Services, the world's dominant cloud services platform.

The solution is available on any modern browser, on any device that supports the browser, anywhere across the globe. It is highly customisable through the following aspects:

- An embedded Content Management System (CMS) to bespoke to the desired look and feel
- Flexible 2 way data integration solutions with other university systems
- Single Sign On
- Configurable navigation, screens, forms, events, email templates and workflows
- Customisable roles based access control
- Powerful flexible deadline and reminder tools
- An integrated business intelligence solution that allows the creation of any report across the data set

SkillsForge delivers the following:

- Skills Assessment and Development
- Course Booking and Administration
- Progression Monitoring and Supervision
- Management of the Student Journey
- Examinations
- Admissions
- Integrated business intelligence

Benefits of SkillsForge:

Generates significant efficiency and effectiveness gains

- Time efficiency savings of up to 75%, i.e. a process that once took 2 hours, now takes 30 minutes
- Elapsed time efficiency savings of up to 85%, i.e. a process that took 13 weeks, now takes 2 weeks
- Helps inform and develop institutional policies and processes

Increases staff and student engagement

- Skills development course uptake more than tripled within a year of implementing SkillsForge

Transforms the user experience

- *"I could claim for my relocation allowance back in 2017... but it really fell into the too hard basket. SkillsForge was SUPER easy to claim for my relocation allowance this year. Too easy!"* - Flinders University user

Ensures compliance

- Improved real time tracking against external and internal regulations
- Protection against potential complaints and litigation (BSI 10008)

Generates better oversight

- Greater transparency of information and processes for all users
- Information significantly improved in breadth, depth and sophistication

Business continuity improvement

- Moving management of the students online creates a complete overview of status and progress
- The SkillsForge SaaS is hosted at Amazon Web Services world class fully redundant data centres
