

13th October 2010

Dear Janet,

Researcher Development Statement

I am writing on behalf of the National Co-ordinating Centre for Public Engagement to offer our support for the Researcher Development Statement.

The statement offers a valuable framework of knowledge, skills and attributes, and we are particularly delighted to see the significance of public engagement captured within the Domain D, 'Engagement, influence and impact'.

We look forward to working closely with Vitae on the implementation of the statement, and to supporting researchers who wish to develop their skills in this domain.

Yours faithfully,

Paul Manners

Director, National Co-ordinating Centre for Public Engagement
