

Vitae Annual Programme

2015/16 Highlights

Our 'Focus on' campaigns enable us to build shared sector intelligence through a combination of Vitae resources and community engagement.

Here is a round-up of the highlights. For the full list of previous themes, see www.vitae.ac.uk/focus-on. The content is available for Vitae member organisations to share with their staff, researchers, and students. Watch out for more great content as we move into the new academic year with the 2016/17 Annual Programme.
